This institution, though not exclusive in its character, will be opened with the view of affording the foreign element of Buenos Ayres a school based entirely on the home principles.

With this intention, and from the support already promised him by some of the first English families of the city, the Rector has determined to found the present Grammar School, which he hopes, from his long experience and professorship in the above mentioned famous institution, to raise to such eminence as to meet in every respect the wants of this highly respectable society.

Important to Sheep Farmers.

A sure cure for the Scab in Sheep.

The undersigned has the pleasure of announcing to the Wool Growers of this country, that he has now received a large quantity of the celebrated *South Down Sheep Wash.*

This valuable preparation is highly recommended for its safety, convenience, utility and economy. It is a concentrated extract, one pound of which is equal to ten pounds of tobacco, retaining in this compact form all the properties of the raw material; at the same time saving the very disagreeable and tedious operation of preparing the wash as is usually practised in this country. The only labor required with the article now offered to the public, is to stir the paste into the quantity of water needed for the Sheep that are intended to be dipped. This Sheep Wash is highly recommended and extensively used by the wool Growers of Australia and South Africa. The Samples that have been used by some of the Estancieros of this Country, have given the most perfect satisfaction, and are recommended by them as the most efficicious remedy ever used in this country; for further particulars apply either personally or by letter to C. S. BOWERS.

The undersigned would respectfully announce to the inhabitants of Buenos Aires and the Argentine Republic, that having completed his arrangements, he has opened the above named establishment to the public on the 23rd May, with an immense supply of the celebrated KEROSENE OIL and a stock of KEROSENE LAMPS, imported from Europe and North America, expressly this market, which for.

is every respect, is unsurpassed in the Globe; all of which will be offered for sale at the most reasonable prices. He would moreover invite the attention of the public to the many advantages of this admirable illuminator over all other light giving agents. Kerosene Oil being a pure extract from bituminous coal, contains all the illuminating properties of coal gas and produces a clear, white light, surpassing Gas light itself in brilliance and of such remarkable softness and purity as to render it infinitely the best light in the world for the eyes, while it costs less than one half as much as gas and is much more economical than the most inferior light in use. The Oil is very cleanly, inodorous, and perfectly safe and the lamps are so simple that they can not be got out of order. The unquestioned superiority of Kerosene Oil over all other artificial illuminators, having been well established throughout Europe and North America [where it has met an adoption unparalleled in the history of improvements], it is now confidently offered to the public as the most perfect and in every respect most desirable illuminator yet introduced. All are invited to call and see the light and judge for themselves; the evening being the best time, to see the establishment.

English Grammar-School.

Calle Suypacha, 406.

Principal—Mr. Pongerard, ex-Professor at the London University College-school.

This institution, though not exclusive in its character, will be opened with the view of affording the foreign element of Buenos Ayres a school based entirely on the home principles.

With this intention, and from the support already promised him by some of the first English families of the city, the Rector has determined to found the present Grammar School, which he hopes, from his long experience and professorship in the above mentioned famous institution, to raise to such eminence as to meet in every respect the wants of this highly respectable society.

The classes comprehend the following branches:

English, French, Spanish
Latin, Mathematics
History, Ancient & Modern
Geography, Writing, &c.
Other branches, such as German, Drawing and Music, are extra.

The strictest discipline will be invariably maintained, due regard being paid to the sanitary condition of the pupils.

In order to reconcile domestic affections with the scholastic duties, children, whose parents may so wish, will be allowed to leave on Saturday evenings and return on Monday mornings at an early hour.

A monthly note will be addressed to the parents of the pupils, informing them of the conduct and progress of the children. No corporal punishment will be inflicted.

Each pupil will furnish the following items, with wearing apparel:

An iron bedstead & washing-stand, a trunk, linen, &c.

SHEEP—SHEEP—SHEEP

Important to Sheep Farmers.

A sure cure for the Scab in Sheep.

The undersigned has the pleasure of announcing to the Wool Growers of this country, that he has now received a large quantity of the celebrated *South Down Sheep Wash.*

This valuable preparation is highly recommended for its safety, convenience, utility and economy. It is a concentrated extract, one pound of which is equal to ten pounds of tobacco, retaining in this compact form all the properties of the raw material; at the same time saving the very disagreeable and tedious operation of preparing the wash as is usually practised in this country. The only labor required with the article now offered to the public, is to stir the paste into the quantity of water needed for the Sheep that are intended to be dipped. This Sheep Wash is highly recommended and extensively used by the wool Growers of Australia and South Africa. The Samples that have been used by some of the Estancieros of this Country, have given the most perfect satisfaction, and are recommended by them as the most efficicious remedy ever used in this country; for further particulars apply either personally or by letter to C. S. BOWERS.

At Messrs. *James Bell & Co.*

(Calle Defensa, esquina Moreno.)

The most satisfactory recommendations of its perfect safety and utility, from the principal estancieros of this this country, may be had on application to the undersigned.

OPENING OF THE GREAT

EMPORIUM OF LIGHT

OF THE LA PLATA

At No. 59 CALLE FLORIDA.

The undersigned would respectfully announce to the inhabitants of Buenos Aires and the Argentine Republic, that having completed his arrangements, he has opened the above named establishment to the public on the 23rd May, with an immense supply of the celebrated KEROSENE OIL and a stock of KEROSENE LAMPS, imported from Europe and North America, expressly this market, which for.

VARIETY!

ELEGANCE and

COMPLETENESS

is every respect, is unsurpassed in the Globe, all of which will be offered for sale at the most reasonable prices. He would moreover invite the attention of the public to the many advantages of this admirable illuminator over all other light giving agents. Kerosene Oil being a pure extract from bituminous coal, contains all the illuminating properties of coal gas and produces a clear, white light, surpassing Gas light itself in brilliance and of such remarkable softness and purity as to render it infinitely the best light in the world for the eyes, while it costs less than one half as much as gas and is much more economical than the most inferior light in use. The Oil is very cleanly, inodorous, and perfectly safe and the lamps are so simple that they can not be got out of order. The unquestioned superiority of Kerosene Oil over all other artificial illuminators, having been well established throughout Europe and North America [where it has met an adoption unparalleled in the history of improvements], it is now confidently offered to the public as the most perfect and in every respect most desirable illuminator yet introduced. All are invited to call and see the light and judge for themselves; the evening being the best time, to see the establishment.

On arriving at Incabridge he was obliged to delay again, snow began to fall faster and the mist was very heavy, he was obliged to take refuge in a hut expressly built for this purpose, where he was forced to remain ten days and finally arrived at Mendoza after twenty five days journey.

The undersigned begs to acquaint his friends and the public in general that he has retired from the management, (and also from the partnership,) of the estancia "de los cerros de San Juan" and that he has entered as partner in the estancia of his brother Mr. Frederick Prangue, known by the name 'Nueva Alemania', situated in the vicinity of the town of Dolores (San Salvador, Banda Oriental) bringing with him his share of the sheep of the establishment of San Juan.

In said Estancia "Nueva Alemania" he will still follow the business of rearing rams of different classes such as the "Negrette" and "Silecianos" pure merino and mestizo, and he now hopes to be better able to meet the wishes of buyers, as his brother received last year from one of the most celebrated establishments in Germany, some rams from a flock of pure negrettes equal if not superior to the best which have ever come to this country—Buenos Ayres March 1862.
